

NAVEEN A

Java Full Stack Developer

8531938057 | naveena170804@gmail.com | leetcode.com/u/naveen_1708/ | github.com/NAVEEN170804

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience developing scalable backend systems using Java, Spring Boot, Spring Security, and MySQL. Experienced in RESTful API development, authentication and authorization, relational database design, CRUD operations, and layered architecture and clean coding practices. Seeking roles as Java Developer, Java Full Stack Developer, or Software Developer.

TECHNICAL SKILLS

Languages: Java, Python
Frameworks: Spring Boot (Spring MVC, Spring Security, Spring Initializr)
Web: HTML, CSS, JavaScript, RESTful APIs, Thymeleaf
Database: MySQL (CRUD, Joins, Constraints, Sub Query, Trigger, Relational Schema Design)
Tools: Git, GitHub, Postman, Eclipse IDE, VS Code, MySQL Workbench
Concepts: MVC and Layered Architecture, Core Java, OOPS, Multithreading, Synchronization, JDBC

INTERNSHIP

Java Full Stack Developer Intern | BDreamz Global Solution, Chennai, Tamil Nadu **Jan 2026 – Apr 2026**

- Developed backend applications using Java, Spring Boot, Spring MVC and RESTful APIs, integrating MySQL for efficient data storage and retrieval.
- Designed, implemented, and tested CRUD API endpoints with Postman; maintained source code and version control with Git and GitHub.
- Applied Spring Security, dependency injection, MVC architecture, JPA/Hibernate, and clean coding practices to build secure and maintainable applications.
- Gained practical exposure to full software development lifecycle — design, development, test, and version control.

PROJECTS

Hospital Appointment System / Java, Spring Boot, Spring Security, MySQL, HTML, CSS, JS

- Developed a full-stack Hospital Appointment System using Java, Spring Boot, Spring Security, and MySQL with secure role-based authentication and authorization(Admin/Doctor/Patient).
- Designed and implemented 10+ REST APIs for patient registration, doctor management, and appointment scheduling, and prescription management following MVC architecture.
- Built a normalized relational database using JPA/Hibernate and MySQL to perform efficient CRUD operations and data management.
- Developed responsive frontend using HTML, CSS, and JavaScript, integrating seamlessly with backend services.

Task Manager Web Application / Java, Spring Boot, Spring Security, Thymeleaf, MySQL

- Designed and developed a full stack Task Manager web application to manage projects, assign tasks and track task progress for teams within an organization.
- Implemented authentication and role based authorization using Spring Security, enabling secure access for Admin and Employee users. Built modules for project creation, task assignment, status updates, and dashboard.
- Designed and integrated a normalized MySQL database schema for users, projects and tasks using JPA for efficient CRUD operations.
- Applied clean code practices: separation of concerns, layered architecture (Controller → Service → Repository).

EDUCATION

B.E – ECE	Government College of Engineering, Thanjavur	CGPA 8.05	2022-2026
HSC (12th)	Allwin Higher Secondary School, Thanjavur	81%	2021-2022
SSLC (10th)	Allwin Higher Secondary School, Thanjavur	83%	2019–2020

CERTIFICATION & TRAINING

Java Full Stack Development – Besant Technologies, Chennai (Offline)
SQL (Basics) & SQL (Intermediate) Certificate - HackerRank

Jan 2026 – Apr 2026
